

Where Will You Be on Monday, August 21, 2017?

Credit: Tom Ruen

A partial eclipse will be seen from **all** of North America. See reverse for safe viewing options.

Credit: S. Habbal, M. Druckmüller, and P. Aniol

Total eclipse will only be visible in the center line (left)—plunging viewers into total darkness.

View the Solar Eclipse Safely With This Card

National Aeronautics and
Space Administration

NEVER Look Directly at the Sun! Try these methods instead:

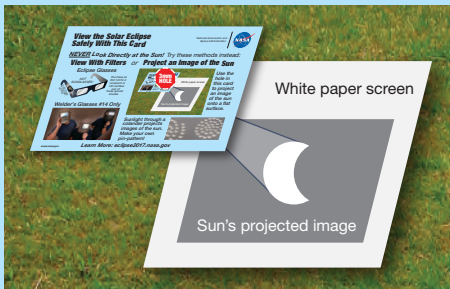

View With Filters or **Project an Image of the Sun**

Eclipse Glasses

Purchase an ISO 12312-2 compliant or CE certified pair of these special shades.

Welder's Glasses #14 Only

Use the hole in this card to project an image of the sun onto a flat surface.

Sunlight through a colander projects images of the sun. Make your own pin-pattern!
